## Technology Express

### China VoIP & Digital Telecom Inc. Subsidiary Successfully Hosted Virtualization Technology Conferences

Jinan Yinquan Technology Co., Ltd., the wholly owned subsidiary of China VoIP & Digital Telecom Inc., successfully hosted two virtualization technology conferences on February 27 and March 6, 2009, respectively.

The first conference was sponsored by Shandong Information Industry Department and hosted by Yinquan to promote Yinquan's virtualization applications. The other conference was jointly held by Vmware China and Yinquan, aiming to provide detailed information on virtualization technology to 30 potential customers.

The two conferences highlighted Yinquan's leading position in the virtualization market in Shandong. The adoption of the technology has been emphasized by the governments and enterprises given its advantages of improving IT efficiency and reducing costs. With the increased marketing effort, Yinquan should take a higher market share and be more successful in the innovative virtualization industry.
