Jinan Yinquan Technology Successfully Hosted 3rd VCP Training Program

Jinan Yinquan Technology, the wholly owned subsidiary of China VoIP & Digital Telecom, successfully hosted the third VCP (VMware Certified Professional) Training program from November 3 to 6, 2009. This 4-day training was organized in “Shandong Virtualization Technology Laboratory” and the trainees were data center administrators from government departments and private enterprises.

The VCP program is designed for professionals with technical backgrounds. These professionals include partners, end-users, resellers, and consultants, who would like to demonstrate their expertise in virtual infrastructure and enhance its technical experience to further advance their careers. During the training, Yinquan’s qualified virtualization engineers led the trainees to learn the newly launched vSphere4, with lab sessions and hand-on classes.

Mr. Roy Zhang, CEO of Vizioncore Greater China, Visited Yinquan Technology

Mr. Roy Zhang, CEO of Vizioncore Greater China, visited Jinan Yinquan Technology (the wholly owned subsidiary of China VoIP & Digital Telecom) at the end of November 2009. During his visit, Mr. Zhang shared his view on the virtualization development and benefits. He also gave his perspectives on the limitations of virtualization applications. In addition, Mr. Zhang and the professionals from Yinquan had an open discussion around the true meanings of virtualization and the future beyond virtualization.

Mr. Zhang highly praised Yinquan’s efforts on offering innovative virtualization solutions and services and promoting virtualization technology as well as Vizioncore’s products in the China market. He said, “It is with great pleasure that I have this excellent opportunity to visit Yinquan and talk with its staff. Vizioncore needs partners, just like Yinquan, who has superior expertise on virtualization. We will continue to have a closer partnership with Yinquan to develop the virtualization market together in the coming years and I am excited about the growth prospects for both companies.”
