CVDT's Subsidiary Wins Virtualization Project Bid of National Taxation Bureau of Jinan

JINAN, Shandong, April 2 /PRNewswire-Asia-FirstCall/ -- Jinan Yinquan Technology Co., Ltd. (Yinquan), the wholly owned subsidiary of China VoIP & Digital Telecom Inc. (OTC Bulletin Board: CVDT), today announced that it has successfully won the bid for the virtualization project of National Taxation Bureau of Jinan ('the Bureau'). The Bureau, a government administrative department, is responsible for all tax revenues of Jinan city.

The Bureau recently accepted the virtualization solution provided by Yinquan to improve its servers' utilization rates and reduce purchasing costs and administrative expenses. As the preferred service provider of the Bureau's virtualization project, Yinquan will help the government agency implement the virtualization solution, which will reduce the number of servers being used as well as the costs associated with the related equipment and maintenance.

The Bureau selected Yinquan for the virtualization project over two other solution providers. The government official who oversaw the bidding process stated that, 'Yinquan's superior technology, large implementation capacity, high-quality service and excellent performance-to-price ratio are the main reasons for us to choose its solution.' The Bureau will be a showcase by which Yinquan demonstrates its virtualization solutions for other government agencies and large-scale enterprises.
